Sponsored by the FAD Task Force on Rocky Mountain Spotted Fever

Did You Know?

Each day 10,000 humans are born in the U.S. – each day 70,000 puppies and kittens are born. As long as these birth rates exist, there will never be enough homes for all the animals. As a result, millions of healthy, loving dogs, cats, kittens, and puppies face early deaths as a form of animal control. Other are left to fend for themselves against automobiles, the elements, animals, and cruel humans. What can you do to stop the suffering? ***Spay and neuter your pets!***

An unsprayed female dog, her mate and all of their puppies and their puppies' puppies, if none are ever neutered or spayed, add up to:

1 year = 16

2 years = 128

3 years = 512

4 years = 2,048

5 years = 12,288

6 years = 67,000 dogs

Concept from: Spay USA, www.spayusa.org

“Are your pets spayed and neutered?? Stop pet overpopulation!!! Do your part.”

Dog Products

Dog Collar Treatment

The dog collar active ingredient should be Amitraz, Deltamethrin or Propoxur

It should be placed around the neck of the dog. Protection against ticks continues up to 5 months. **Do not use on puppies or cats unless directed by label.**

Top-spot droplet Treatment

The most effective top-spot treatments are made by Frontline/Advantage/Advantix.

Top spot is a liquid applied to dog's skin between the shoulder blades. It must be reapplied every 30 days. Each package provides a 3 or 4-month supply. Use 1 tube per application. Different doses available for different size of dog. Not intended to be use on puppies

Tick Powder Treatment

Powders provide long lasting control and kills ticks on contact. Can be used on puppies .

These treatments are available through your veterinarian and local stores.

IMPORTANT! Keep all pesticides out of reach of children. Follow the directions on the product label carefully and use personal protective equipment (i.e. gloves, safety glasses) as directed. Wash hands thoroughly after using these products. It is a violation of state and federal laws to apply pesticide in a manner not consistent with the package label.

NOTE: This information is not an endorsement of the products listed or the companies who sell these products. More effective products may be available from your veterinarian or local hardware stores garden section.
